

SUPER ICON

Super Icon is a London based independent multi-platform game development & digital publishing studio who strive to create intelligent playful game titles and apps that are something special.

In addition to our original game development, we work with brands and collaborate with creative agencies. We can extend a brand into games - creating a great and compelling game experience that does the brand justice.

We develop games for the biggest gaming platforms - including PS4, PSVita, PlayStation Mobile, Wii-U, iOS, Android, Tablet, HTML5, Linux, MacOS and Windows.
